EDUCATION:

MSc, Computer Science CGPA 3.7/4.0
Western Illinois University – Macomb, IL **2021 – 2023**

Bachelor of Science in Statistics and Economics
University of Benin, Benin-City, Edo, Nigeria October 2015 **2011 – 2015**

TECHNICAL SKILLS

SQL Server BI Developer
Programming Languages: T-SQL, C#, Python, Java, JavaScript, HTML5 and CSS3

Applications/Framework: Microsoft Visual Studio (SSDT), Microsoft SQL Server Management Studio, SSRS, SSIS, SSAS, MySQL, Sublime, Komodo Edit and Microsoft Office: Word, PowerPoint, Excel and Corel Draw.

WORK EXPERIENCE

Data Analyst
Sodexo, Illinois, United States **2021 – 2022**

- Using Look-up in SSIS functionality for end-to-end accountability for the processing, cleansing, and verifying the integrity of data used for analysis. And matching records of attendee employee with respective shift.
- Researching and designing data-driven visualizations to create models and assets that informs Sodexo on actions and opportunities that emerge through data analysis and interpretation.
- Developing optimization methods through simulation, scenario analysis and apply these to get the best results.
- Created paginated reports with drill-down, drill-through and cascaded parameters for analyzing filtered performance in specific periods
- Designing, developing and implementing new functionality in ETL process.
- Extensively used DDL, DML TCL statements for defining, accessing and manipulating transactional systems.
- Designing custom data processing and statistical techniques.
- Used C# script to extract file names from paths during ETL processes of reading multiple excel files in SSIS.
- Processing trends for reviewing sales records to determine which menu items are most profitable.
- Taking inventory of Supplies and other consumables as needed.

Internal Data Analyst
Nestle, Lagos **2019 -2020**

- Built basic ETL that ingested transactional and event data from a web app DMS 1 with 10,000 daily active users that saved over $85k annually in external vendor costs

- Worked across marketing and product business units to build out the reporting infrastructure in SSRS from ground up
- Created interactive cohort analysis report in SSRS for the product team with parameters that helped improve monthly retention by 17% for a specific target
- Automated processing of billions of rows of data from Excel files and Flat files using SSIS to improve real-time reporting of product metrics, saving the company $273K yearly in reduced downtime
- Used stored procedures, triggers, and views to provide structured data to business units by combining millions of rows of data from 19 disparate data sources
- Formed hypotheses, and tested ideas to determine viability of operation outcomes

Database Analyst,
FerraTech Limited, Lagos **2017 – 2019**

- Designed and developed T-SQL Scripts, configured SSIS packages for sales values to implement ETL processes. This automates and integrates my data from flat file sources, excel files and other data platforms to a staging table.
- Used C# script to extract file names from paths during ETL processes for reading multiple excel files.
- Analyzed raw data for Sales figures on a staging table for data cleansing and developed visualization using both SQL Server Reporting Services (SSRS 2012) and SQL Server Management Studio (SSMS 2012).
- Designing, developing and implementing new functionality in ETL process.
- Monitoring the automated loading processes.
- Designed stored procedure in SSMS for data processing and statistical techniques in SSIS. This implementation was for drawing recommendations in order to make quick effective executive decisions.
- Improved configuration and plan computer specifications to determine platforms necessary for presenting data.

VOLUNTARY SERVICES

Financial secretary,
Sustainable Development Goals (National Youth Service Corp) **2016 – 2017**

- Managed financial records for the period of a year

Teacher and Typist,
New Era Secondary School (National Youth Service Corp)

- Taught students according to topics from the syllabus.
- Typed Exam questions for the school.
- Coordinated vetting of Exam question.
